Cancellation Policy

In our efforts to offer you, our patients, ample time and attention at your appointment, we schedule our patients every fifteen minutes per provider. Other offices schedule more, assuming that some may not show up for their appointments. This can cause long waits and extended time in the office. Since we seldom practice this type of scheduling it is important that you show up for your appointment.

There are of course occasions when you absolutely cannot make your appointment. Please call us at least 24 hours prior to the missed appointment so that we may offer the time slot to another who needs to be seen.

Due to the cost's incurred by missed appointments there will be a small fee, \$25, for each no-show. Since insurances will not cover this fee you will be responsible for payment.

I have read and understand Desert Orthopedic Specialists cancellation policy.
